

5energies® is a new way of looking at the core skills necessary for effective learning to take place. It is an integrated framework of assessment, analysis and implementation of effective programmes to suit learner needs.

For children from 3 years to high school, intervention or remediation programmes are designed to suit each child's learning needs (in individual or small group sessions at our Learning Centre).

5energies© also supports **childcare professionals, teachers** and schools with professional learning.

Telephone: (07) 3888 6069

We are not a tutoring company. Our expertise is investigating the underlying reasons why a child is not learning to his or her full potential, and taking steps to assist each child to develop more effective learning skills across the curriculum.

- ✓ Comprehensive, integrated screening for children aged 3 – high school across learning domains;
- ✓ Learning sessions in small groups or individually with parents in attendance;
- ✓ Learning sessions after school and Saturday sessions (ring for availability);
- ✓ Trained, qualified, experienced and registered Learning Consultants delivering quality programmes;
- ✓ A range of learning resources to support learning;
- ✓ 'One stop shop' with **5energies**® Speech Pathologist, Occupational Therapist and Educational Psychologist; and
- ✓ Parent Information and skill development sessions in key areas of Literacy and Numeracy such as effective reading or spelling strategies.

Comprehensive Learning Support for Children

Fun filled games and learning activities are at the heart of the **5energies**® approach. This premium learning provides ideal opportunities for learning together.

At left (top to bottom): Petal highlighter pen, plastic mosaic tiles and jars of smiley faces

5energies® is the result of an effective collaboration by teacher educators, speech pathologists, occupational therapists, IT and multimedia developers and singer / songwriters

A range of effective resources is available through the website and Learning Centre to support activities and programmes.
